

**GATWICK AIRPORT
DETAILED MOVEMENT and NIGHT PERIOD ANALYSIS BY AIRLINE OPERATOR
MARCH 2024**

Appended below is my regular monthly report summarising details of the daily movements at Gatwick together with details of actual night period movements by airline for the month of March 2024. These are based on official Eurocontrol sources as downloaded and recorded each day online on The Original Gatwick Spotters List.

March is the last month of the so-called 'Winter Season' and hence we are starting to see the number of movements increase – and, with Easter being early this year, the final days indicate a modest upsurge. In considering pre-Covid comparisons, we have now reverted to looking at March in 2019

The average daily movements during March 2024 was 645 (February was 608), although the equivalent in March 2019 was 731 per day – hence still showing only an 88% recovery against pre-pandemic (the equivalent recovery level for February was 85%).

As to Night Movements, full details are, as always, provided and also still show that, taking into account the reduction in overall numbers, there is still a proportionate increase in the level of night movements in comparison with pre-pandemic levels and, in particular arrivals after midnight and early morning departures.

It is hoped that these analyses will assist in making informed representations in regard to the current regulatory consultations and committees.

Overall Summary of Movements.

Appendix 1 shows the numbers of movements each week since June 2021 and shows this month's movements averaged 645 per day; an increase on February's 608 per day but still only 88% of the number of pre-pandemic movements.

Appendix 2 shows a daily movement count for each airline. EasyJet remains the predominant airline, well above British Airways/BA Euroflyer. But, in practice, none of the major players have significantly increased their level of operations this month. On short-haul, we are seeing a few new regulars returning or marginally increasing services such as Volotea, Aegean, Freebird and Corendon. Air Malta, at the end of the month, was replaced by Malta Airlines but since it uses the same aircraft no difference has been noted!

While a number of new or previous airlines are anticipated post-Easter, the only one to have arrived is Azerbaijan Airlines which has commenced a thrice-weekly service. Other carriers are anticipated post-Easter but it is still too early to say which ones will be long-term stayers. Airlines which were regulars in pre-Covid times which have not (yet) returned (and excluding those impacted by the Ukraine war and those that have gone bust) include Virgin Atlantic, Austrian, Finnair, Iraqi Airways, West Jet, Cathay Pacific, China Airways (Taiwan) and Rwandair.

Analysis of Night Period Flights

Appendix 3 below provides details of all movements by airline and time during the Night Period from 2300 to 0659; including the 'core' period of 2330 to 0600 where the numbers of movements are, at least in theory, subject to regulatory capping (there remains controversy as to a number of mechanisms which allow flights in excess of the cap).

In the period from 2300 to 0659; the hourly figures (half-hourly for 2300 and wef 0500) were as follows for March (February 2024 in brackets):

	Landings	Take-offs
2300-2329	206 (179)	11 (4)
2330-2359	129 (120)	4 (1)
0000-0059	143 (114)	1 (3)
0100-0159	49 (46)	1 (0)
0200-0259	15 (6)	0 (1)
0300-0359	15 (15)	1 (0)
0400-0459	20 (22)	0 (2)
0500-0529	22 (25)	2 (0)
0530-0559	61 (47)	37 (44)
0600-0629	86 (101)	267 (228)
0630-0659	119 (105)	315 (283)

Night period traffic remained broadly similar to the movements in February with arrivals during the Night Period aggregating 865 landings (as against 780 in February) – an average of 27.9 per night, a marginal increase in comparison with the average of 26.9 per night in February. Departures totalled 639 (February - 566) an average of 20.6 per night again a slight increase as against 19.5 per night in February. As the above table illustrates, these increases continue to be predominately late night arrivals and early morning departures.

Comparisons with 2019 (pre-Covid)

Appendices 4 and 5 set out the equivalent data for Gatwick movements pre-pandemic so one can compare both the extent to which Gatwick has recovered and also to note what has materially changed to assist in considering the possible future traffic movements. While there have been, as related above, some significant operator changes between 2019 and today, the overall mix is not dissimilar with still a heavy concentration on short-haul European flights.

First, looking at total movements for equivalent weeks, we see this for March (2019/2024):

Week One: 5095/4397 Week Two: 5105/4457 Week Three: 5094/4457 Week Four: 5109/4601

The overall traffic recovery levels were thus a fairly consistent 86%; 87%; 87% and 90% in comparison with the equivalent pre-pandemic period. Compared to the monthly overall 88% this also indicates the impact of the early Easter.

In regard to Night Movements, while we compare the current month with the equivalent in 2019, we also now illustrate the equivalent position in 2023.

March:	Landings			Take-offs		
	2019	2023	2024	2019	2023	2024
2300-2329	269	251	206	26	19	11
2330-2359	154	156	129	4	11	4
0000-0059	85	181	143	6	6	1
0100-0159	55	109	49	0	3	1
0200-0259	24	56	15	3	0	0
0300-0359	25	26	15	20	0	1
0400-0459	27	10	20	3	2	0
0500-0529	59	22	22	1	0	2
0530-0559	48	46	61	30	24	37
0600-0629	149	63	86	231	176	267
0630-0659	110	64	119	369	290	315
Totals	1005	984	865	693	531	639
Core Night	477	606	454	67	46	46

This comparison shows that the number of night arrivals in 2024 were broadly in line with the overall recovery of traffic movements with 865 landings being 86% of the 2019 figure. However, the level of departures was higher with 639 being 92% of the 2019 figures.

Looking at movements in the 'core' night period, the 2024 figures are proportionately higher than 2019 (although much reduced from the 2023 figures) while the departure figures are broadly similar.

The Night Flight regime is currently under review by the DfT although its Consultation document favours 'kicking the can down the road' pending both an analysis of ongoing recovery trends as well as consideration of reports on the health impact of sleep disturbance caused by night noise. This Report may assist consultees.

APPENDIX 3: GATWICK AIRPORT NIGHT PERIOD ANALYSIS – March 2024
Departures & Arrivals 23.00-06.59

Note: Up to 0500, the date refers to the 'night of' - eg March 1 is the night of March 1/2. Movements after 0500 are recorded on the actual date (except some 'just prior 0500' arrivals).

Date	Airline	Departure Time	Arrival Time

APPENDIX 5: GATWICK AIRPORT NIGHT PERIOD ANALYSIS – March 2019
Departures & Arrivals 23.00-07.00

Note: Up to 0500, the date refers to the 'night of' - eg March 1 is the night of March 1/2. Movements after 0500 are recorded on the actual date (except some 'just prior 0500' arrivals).

Date	Airline	Departure Time	Arrival Time
March 1	EasyJet (Dep)	0611; 0623; 0630; 0632; 0635; 0642; 0654; 2336
