

GATWICK AIRPORT
DETAILED MOVEMENT and NIGHT PERIOD ANALYSIS BY AIRLINE OPERATOR
JANUARY 2024

Appended below is my regular monthly report summarising details of the daily movements at Gatwick together with details of actual night period movements by airline for the month of January 2024. These are based on official Eurocontrol sources as downloaded and recorded each day online on The Original Gatwick Spotters List.

Now well into the 'Winter Season', there was a significant reduction in overall movements in the month of January. The numbers of movements were some 3.2% higher than the equivalent post-pandemic month in 2023, but with recovery levels in December at 95% of pre-pandemic movements, January showed a drop back to only an 86% recovery. It must be noted that there was no Covid impact on movements in January 2020. In future reports, while we will record 2020 figures for completeness, we will focus again on 2019 comparisons.

As to Night Movements, full details are provided and also still show that, taking into account the reduction in overall numbers, there is still a significant increase in the level of night movements in comparison with pre-pandemic levels and, in particular arrivals after midnight and early morning departures.

It is hoped that these analyses will assist in making informed representations in regard to the current regulatory consultations and committees.

Overall Summary of Movements.

Appendix 1 shows the numbers of movements each week since June 2021 and shows this month's movements averaged 522 per day – down from December's average of 641 per day. Pre-pandemic (and as yet unaffected by it), the average in January 2020 was about 602 movements per day, which means that Gatwick in January was running at 86% of its equivalent pre-pandemic traffic levels.

Appendix 2 shows a daily movement count for each airline. While EasyJet continues to be the pre-eminent airline at Gatwick, their movements significantly reduced from the second week onwards (and was the major contributing factor in the downturn). And, it is notable that their weekday flights are now much lower than they were in 2020. Most other short-haul airlines are little changed month on month, although Tui is down about 25%.

One airline dropped off the radar in January; the Spanish carrier, Volotea, which had commenced a twice-weekly service in November and ceased these services in early January. JetBlue also dropped from twice daily to once a day. On the other hand, Swiss International which commenced 4 weekend return flights just prior to Christmas, have continued this service throughout January.

Comparing the start of 2024 with 2020, we do note a number of operator changes. While Gatwick has lost Virgin, WestJet, Cathay Pacific, China Airlines, Rwandair and Jazeera as well as several Eastern bloc countries due to the Ukraine war and with British Airways moving a good part of its short-haul to Heathrow, we have seen Wizzair rising to becoming a major operator into Gatwick. And several other airlines now regularly feature, including Lufthansa, Sky Express and Nouvelair and the long-haul carriers, Saudia, Air India, China Southern, Air Mauritius and Ethiopian.

Analysis of Night Period Flights

Appendix 3 below provides details of all movements by airline and time during the Night Period from 2300 to 0659; including the 'core' period of 2330 to 0600 where the numbers of movements are, at least in theory, subject to regulatory capping (there remains controversy as to a number of mechanisms which allow flights in excess of the cap).

In the period from 2300 to 0659; the hourly figures (half-hourly for 2300 and wef 0500) were as follows for January (December 2023 in brackets):

	Landings	Take-offs
2300-2329	130 (239)	10 (11)
2330-2359	84 (171)	3 (4)
0000-0059	92 (194)	10 (8)
0100-0159	48 (71)	4 (4)
0200-0259	16 (21)	1 (2)
0300-0359	17 (12)	0 (2)
0400-0459	21 (20)	0 (0)
0500-0529	19 (18)	0 (1)
0530-0559	55 (53)	35 (30)
0600-0629	97 (101)	205 (272)
0630-0659	122 (131)	222 (350)

Post-Christmas and with the reduction in flights generally, we are seeing material reduction in night-time traffic with arrivals during the Night Period aggregating 701 landings (as against 1,031 in December) – an average of 22.6 per night as against an average of 33.3 per night in December. Departures totalled 490 (December – 687) an average of 15.8 per night as against 22.2 per night in December. As the above table illustrates, these reductions are predominately late night arrivals and early morning departures.

Comparisons with 2019/2020 (pre-Covid)

Appendices 4 and 5 set out the equivalent data for Gatwick movements pre-pandemic so one can compare both the extent to which Gatwick has recovered and also to note what has materially changed to assist in considering the possible future traffic movements. Quite clearly, there are many significant differences between what we see currently and the equivalent period in 2019/20. As mentioned above, Covid restrictions had not yet come into play in January 2020.

First, looking at total movements for equivalent weeks, we see this for January (2020/2024):

Week One: 5060/4569 Week Two: 4320/3487 Week Three: 3955/3207 Week Four: 3978/3372

The overall traffic recovery levels were thus 90%; 81%; 81% and 85% in comparison with the equivalent pre-pandemic period, which at an average of 86% is a notable decrease in recovery levels as compared to December's 95%.

January:	Landings		Take-offs	
	2020	2024	2020	2024
2300-2329	162	130	30	10
2330-2359	71	84	3	3
0000-0059	34	92	5	10
0100-0159	13	48	2	4
0200-0259	20	16	2	1
0300-0359	16	17	1	0
0400-0459	24	21	0	0
0500-0529	52	19	4	0
0530-0559	78	55	23	35
0600-0629	138	97	166	205
0630-0659	136	122	266	222

This comparison shows that the number of night movements were broadly similar overall with 701 landings (2020 – 744) and 490 departures (2020 - 502), though of course, as mentioned above, total movements were only 86% of the 2020 figures. Looking at movements in the 'core' night period, the 2024 figures are higher – landings 352 against 308 and departures 53 as against 40. This continues the trend noted during 2023.

Although somewhat crystal-ball gazing, the lower 2023/24 figures and trends continue to suggest that one could challenge the long-term growth predicted by Gatwick in their DCO application for the Northern runway, particularly when one also takes into account the various other issues which might have an impact on future air travel. As mentioned above and previously, the Night Flight regime is also currently under review by the DfT and a Consultation document is anticipated in the near future. We would hope that they will take account of the current figures now that a level of normality has returned.

APPENDIX 3: GATWICK AIRPORT NIGHT PERIOD ANALYSIS – January 2024
Departures & Arrivals 23.00-06.59

Note: Up to 0500, the date refers to the 'night of' - eg January 1 is the night of January 1/2. Movements after 0500 are recorded on the actual date (except some 'just prior 0500' arrivals).
