

# Hedge

# Planting

**Thursday 15<sup>th</sup> and  
Friday 16<sup>th</sup> January 2026**

**9:30am-3:30pm**

**Baldhorns Park Farm,  
Near Rusper**

We're working collaboratively with landowners to safeguard communities downstream at risk of flooding by delivering a range of 'slow the flow' interventions in the Upper Mole catchment.

**Come and volunteer with us to plant  
some native hedging to intercept surface  
water run off to help prevent flooding.**

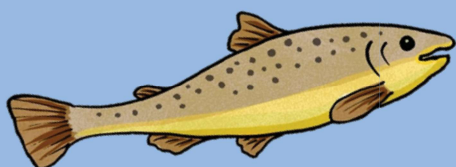

This is a fantastic opportunity to help protect your local river for the benefit of people and nature and to have a great day out! No experience necessary and refreshments provided.

**Find out more  
and sign up**
